

Att'y Ref. No. 011-001

U.S. App. No.: 10/770,402

IN THE CLAIMS:

Kindly rewrite Claims 1-10 and add Claims 11 and 12 as follows:

[Page 3 of 8]

Att'y Ref. No. 011-001

U.S. App. No.: 10/770,402

1. (Currently Amended) A magnifying holder comprising:
a front;
a back;
a spine joining the front to the back; and
a magnifying lens attached to the front or the back;
wherein the front includes a hole therethrough, and the lens is attached to the front and over the hole.
2. (Canceled)
3. A magnifying holder in accordance with Claim 1, further comprising:
a front;
a back;
a spine joining the front to the back;
a magnifying lens attached to the front or the back; and
a lens hinge attached between the lens and the back.
4. (Original) A holder in accordance with Claim 3, wherein the lens hinge comprises a supple material.
5. (Original) A holder in accordance with Claim 3, wherein the back includes a first edge and a second edge, the first edge being longer than the second edge, the lens hinge attached to the long edge.
6. (Original) A holder in accordance with Claim 5, wherein the long edge is opposite the spine.
7. (Original) A holder in accordance with Claim 5, wherein the long edge is adjacent

Att'y Ref. No. 011-001U.S. App. No.: 10/770,402

the spine.

8. (Original) A holder in accordance with Claim 3, wherein the back includes a first edge and a second edge, the first edge being longer than the second edge, the lens hinge attached to the short edge.

9. (Original) A holder in accordance with Claim 1, wherein the back is substantially rectangular and includes a first edge and a second edge, the first edge being about 9.5 inches long, and the second edge being about 4 inches long.

10. (Original) A holder in accordance with Claim 1, wherein the lens is substantially rectangular and includes a first edge and a second edge, the lens first edge being about 3 inches long and the second edge being about 5 inches long.

11. (New) A holder in accordance with Claim 3, wherein the back is substantially rectangular and includes a first edge and a second edge, the first edge being about 9.5 inches long, and the second edge being about 4 inches long.

12. (New) A holder in accordance with Claim 3, wherein the lens is substantially rectangular and includes a first edge and a second edge, the lens first edge being about 3 inches long and the second edge being about 5 inches long.
